

PRESIDIO® FUNGICIDE SUPPLEMENTAL LABEL NOTICE

JANUARY 21, 2013

Valent U.S.A. Corporation Removal of Presidio® Fungicide Supplemental Label 2011-PRD-0011

FOR INTERNAL AND EXTERNAL DISTRIBUTION

- ❖ Valent has removed *Presidio* Fungicide Supplemental Label 2011-PRD-0011 containing Brassica (Cole) Leafy Vegetables, Root and Tuber Vegetables, Carrot, Potato and a 30-day rotation interval for Wheat. The Supplemental Label is no longer posted on the Valent website, CDMS or Agrian.
- ❖ The reason for this action is that Valent has been requested to conduct additional regulatory studies to support *Presidio* use in potatoes and carrots.
- ❖ Within the next several weeks, Valent will be posting revised Supplemental labeling without potatoes and carrots.

Below are answers to anticipated questions:

Are potato and carrot uses expected to be reinstated in 2013?

No. Valent anticipates that potato and carrot use will be reinstated in the future, but not in 2013. When the uses will be reinstated is not known at this time.

Is there any impact on potatoes and carrots already treated with *Presidio*?

No. Users were following an EPA-approved use pattern.

Is there any impact on other *Presidio* uses?

No. You may continue to promote and use *Presidio* on other labeled crops.

Who should I contact with questions?

Carolyn Syphrit, *Presidio* Product Marketing Manager

Office: 925-256-2737

Mobile: 925-951-3687
