Compliance Advisory

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
#2026-09 Issued: 10/29/2026

PESTICIDE PRODUCT REGISTRATION
PESTICIDE PRODUCT SYSTEM (PPS)

WHO IS AFFECTED BY THIS ADVISORY?

Pesticide product manufacturers and pesticide product registrants seeking new and renewed registration for a pesticide product for distribution, sale and use in New Jersey.

WHY IS THE DEPARTMENT ISSUING THIS ADVISORY?

The Department's Bureau of Pesticide Control (BPC) is currently experiencing issues with invoicing, payments, license printing and status updates due to significant functionality issues with outdated platforms.

WHAT IS THE DEPARTMENT DOING?

The BPC is allowing pesticide product registrations that are set to expire on December 31, 2026 to remain valid until full functionality to our system is restored and renewals can be processed. However, pesticide product manufacturers or other individuals or businesses seeking initial registration of a formerly unregistered pesticide product must wait until full functionality is restored and new registration applications can be fully processed.

Once full functionality to our system is restored, the Department will send an email blast notifying all pesticide product manufacturers seeking initial or renewed registrations and the current "System Notice" message currently posted on the BPC website will be updated.

WHAT SHOULD I DO?

Pesticide product manufacturers and pesticide product registrants with active registrations may continue to conduct business as usual under their current registrations. Pesticide product manufacturers and pesticide product registrants can continue to reference the BPC websites provided below for updated information on system functionality. Finally, pesticide product manufacturers and pesticide product registrants can monitor their email for the above referenced email blast which will relay when BPC pesticide product registration functionality is restored.

WHO SHOULD I CONTACT WITH QUESTIONS?

For pesticide product registration questions, please contact:	NJDEP Bureau of Pesticide Control pcp@dep.nj.gov (609) 984-6568 https://dep.nj.gov/pesticides/

WHERE CAN I UPDATE MY CONTACT INFORMATION OR PROVIDE AN EMAIL ADDRESS?

If you have not previously provided an email address, please email pesticideproduct@dep.nj.gov.

WHERE CAN I GET MORE INFORMATION?

The following websites can be accessed for additional information.
